

Dear BCA Math Team,

For the past 4+ years, we (Lance, Jaiden, Nikhil) have been members of the Math Team, and it's rather bittersweet saying goodbye. Believe it or not, this was our first fully in-person Math Team season as high schoolers, and we're so glad that y'all made it as enjoyable as we could have possibly hoped for. From running around trying to make sure exams ran smoothly during the JHMMC to running around trying to make diving frisbee catches at ARML, our last year on Math Team has been a great time.

Competition-wise, we like to think we had a very successful year! To recap, we accomplished...

- 59 AIME qualifiers
- 4th in CMIMC TCS
- 7th in CMIMC Overall (Team)
- 8th in PUMaC Team Round
- 9th in PUMaC Overall (Team)
- 3rd in ARML's Power Contest

And, of course, Marvin's myriad of individual achievements and **selection to compete at IMO!**

Us three rarely agree on things, but we all believe that the future is very bright for Math Team. We hope you'll all continue to stick around, explore the beauty of mathematics, and go to ARML for the ice cream. Trust us, it's worth it :)

If you ever want to contact us, feel free to do so via Discord or at...
